

## Product

**DFM2345W50FA**

## Specification

|                                 |                                                                            |
|---------------------------------|----------------------------------------------------------------------------|
| Center Frequency[fo]            | 2345.5MHz                                                                  |
| Bandwidth[BW]                   | ±25.0MHz                                                                   |
| Insertion Loss in BW            | 3.0 dB max.                                                                |
| Ripple in BW                    | 1.0 dB max.                                                                |
| VSWR in BW                      | 1.4:1max.                                                                  |
| Attenuation<br>[Absolute Value] | 45.0 min. @ fo+100 MHz<br>45.0 min. @ fo-100 MHz<br>55.0 min. @ fo-140 MHz |
| In/Out Impedance                | 50Ω                                                                        |
| Input Power                     | 3 w max.                                                                   |
| Operation Temperature           | -40℃ ~ +85 ℃                                                               |
